

BASELINE SURVEY

Thank you for participating in this NextGenPSD2 Implementation Survey. NextGenPSD2 appreciates your time. Please use one survey sheet for each country data.
Rest assured that the answers you provide will not be individually identifiable in any later publication of the survey results.

Point of Contact	Name:	Joachim Knospé
	Title:	
	Organisation:	Fiducia GAD IT AG
	Surveyed country:	DE
	E-mail address:	xs2a-support@fiduciagad.de
	Phone number:	

Specification Version & Usage	1.a. Select the version of the NextGenPSD2 Framework that you are implementing:	<input type="radio"/> Version 1.1 <input checked="" type="radio"/> Version 1.2 <input type="radio"/> Version 1.3	Additional comments: Change of URL length from Version 1.3 is included and goLive for fallback exemption at 14.06.2019 is planned
	1.b. On which date do you expect your NextGenPSD2 implementation to go live in public production:	14.09.2019	Additional comments:
	1.c. Please specify for how many banks your NextGenPSD2 implementation(s) will work:	ca. 950	Additional comments: Fiducia & GAD IT AG provides services for 915 German cooperative banks and some smaller German private banks

Domestic Products	2.a. Which domestic credit transfer schemes/products are you supporting (if any; use the orange cells for more than 1 item if needed):	

If you have implemented more than 1 API implementation of NextGenPSD2 (e.g. in case of processors/associations working for multiple banks), then please fill in the below pink-marked areas only.

If you have implemented exactly 1 API implementation of NextGenPSD2 (e.g. in case of a single bank or 1 API solution for several banks), then please fill in the below green-marked areas only.

<--- PLEASE READ THIS INSTRUCTION FIRST

XML/JSON usage for payments	3.a. Usage of XML payments formats:	<input type="radio"/> Complete (>95%) <input type="radio"/> High (75% - 95%) <input type="radio"/> Medium (25% - 75%) <input type="radio"/> Low (<25%)	3.a. Usage of XML payments formats:	<input checked="" type="radio"/> Yes <input type="radio"/> No
	3.b. Usage of JSON payments formats:	<input type="radio"/> Complete (>95%) <input type="radio"/> High (75% - 95%) <input type="radio"/> Medium (25% - 75%) <input type="radio"/> Low (<25%)	3.b. Usage of JSON payments formats:	<input type="radio"/> Yes <input checked="" type="radio"/> No

Supported Consent Models	4. Consent Models supported:	<input type="checkbox"/> Detailed (TPP managed) <input type="checkbox"/> Global (all accounts) <input type="checkbox"/> Bank offered (in redirect)	4. Consent Models supported:	<input checked="" type="checkbox"/> Detailed (TPP managed) <input checked="" type="checkbox"/> Global (all accounts) <input type="checkbox"/> Bank offered (in redirect)
--------------------------	------------------------------	--	------------------------------	--

Supported SCA Approaches	5a. SCA Approaches supported:	<input type="checkbox"/> Embedded SCA <input type="checkbox"/> Redirect SCA <input type="checkbox"/> Integrated OAuth SCA <input type="checkbox"/> Decoupled SCA	5a. SCA Approaches supported:	<input checked="" type="checkbox"/> Embedded SCA <input type="checkbox"/> Redirect SCA <input type="checkbox"/> Integrated OAuth SCA <input type="checkbox"/> Decoupled SCA
	5b. SCA exemption for AIS following EBA RTS Art. 10? (impact on AIS access with PSU involvement)	<input type="radio"/> Yes <input type="radio"/> No	5b. SCA exemption for AIS following EBA RTS Art. 10? (impact on AIS access with PSU involvement)	<input checked="" type="radio"/> Yes <input type="radio"/> No

Types of Account Statements	6a. Account formats used in retail banking:	<input type="checkbox"/> JSON <input type="checkbox"/> camt <input type="checkbox"/> MT94X	6a. Account formats used in retail banking:	<input checked="" type="checkbox"/> JSON <input type="checkbox"/> camt <input type="checkbox"/> MT94X
